I will always professionally make any required announcements during the function, such as your first dance. But rest assured, I'm not the sort of DJ who likes to talk unnecessarily over all of the songs!

The evening package is created for myself to DJ for up to 5 hours, which makes it one of the more popular packages. You can choose from any of the DJ booths we have including the rustic one.

When booking with myself you are able to have direct contact with me and as many phone or video conversations you require. So you can rest assured your evening will go the way you want it.

Professionally announce any key proceedings as required, including the following important moments:

(Plus any others you wish)

For the speeches I can provide a wireless microphone which will ensure all of the guests can hear.

Wireless Uplighting and Mirror Balls

Uplighting is a cost effective way to transform the ambiance of a lifeless room into a classy venue.

Because these uplighters can be controlled wirelessly this means once the party starts the whole room can be transformed, helping everyone get into the mood to party.

It sets the overall mood for your wedding and allows you to show off all the pretty details you've spent months thinking about. Lighting up and exaggerating features of a venue giving a finishing touch to any wedding.

Testimonials

Mr & Mrs Brogan

Amazing & stress free

Would 100% recommend Samuel he is very professional, approachable & efficient. I found that he answered questions with a rapid response & very knowledgeable. He has a very easy to use service to create your own playlist with lots of extras. We had a few extras on our day & so glad we did as it just made the whole experience even better. We had uplighters that against the beams in our venue created a magical look. We also had the photo booth service which was a big hit with our guests, this service comes with a professional that is supervising this all night & a personalised guest book of all the guests photos is made & given to you that day which is a lovely memorable gift. Samuel Also put materials into place to make it possible for a family member to sing whilst I walked down the aisle. Nothing is too much & would definitely use again

Mr & Mrs Franklin

Sam came to our rescue after our original DJ went in to administration. All things happen for a reason because it was a blessing in disguise! Sam... unlike our original DJ was available to talk to us whenever we needed he kept in contact throughout the whole of our booking to keep our minds at ease and because of that we totally trusted him and could relax!

Sam on the day was just amazing, he worked so amazingly with Johnny Sax, they made sure we had the most perfect evening from start to finish. He even brought an extra mic so our daughter could sing 9-5 by Dolly Parton.

He created the most perfect atmosphere. We hired the extra lighting from Sam (you must all do this, it's beautiful!) and we also hired our photo booth from him. The props were just fab and we went home with an extra guest book full of our guests photos and messages that we will be able to keep forever :-)

Mr & Mrs Wainwright

We couldn't have asked for anything more from Sam. He was always quick to respond to texts and really knows how to work the crowd. We had a playlist but having read all his reviews we knew we were in good hands and let him play what he wanted which worked out so much better.

We booked Johnny on the Sax as a package and he was amazing. I didn't think we needed a photo booth as we already went over our budget but I'm I am so glad I did! We got hundreds of photos back which were all downloadable so it gave us something to remember while we wait for our professional photos and our guests loved it!
